

When designing artwork for stencil production please bear in mind the following points:

The stencils are cut from 2mm mild steel and the 'message' is power-washed onto the pavement. The less complex the design, the easier it will be to read when 'cleaned' onto the pavement

Because the words are cut-out the centre of 'O', for example, would fall out if it wasn't held by strips of steel known as 'runners'.

Max Document Size
A0 / 841 mm x 1189 mm

File Formats
Artwork should be supplied as EPS files

Digital Files
